

The Alabama Broadcasters Association is excited to announce that we have partnered with the United Way agencies of Alabama to utilize the 2-1-1 phone number to provide DTV information statewide. Beginning Thursday, February 12 Alabama residents can dial 2-1-1 to inquire about a variety of DTV topics including converter box retailers, TV station phone numbers, antenna installers and very simple trouble shooting of converter box issues. For more specific technical issues, 2-1-1 operators will refer callers to their local television stations.

Here are the media contacts for all 211 call centers covering the State.
