

## INSTRUCTIONS FOR POINT SUPPLEMENT TO PENDING FCC 340 (Noncommercial Educational Broadcast Stations)

### GENERAL INSTRUCTIONS:

**Purpose of Supplement/What to Submit:** Applicants who filed FCC Form 340 to construct noncommercial educational broadcast (NCE) stations prior to June 2000, and that are mutually exclusive with other such applicants, must supplement their applications to be considered under a new point selection system.

Although applicants may use any June 2000 or later version of the Form 340 to submit a supplement, we have compiled the attached supplement as a convenience to applicants. It contains Sections III and IV of the revised Form 340 (the fair distribution and point information that was not included previously) along with portions of the instructions and worksheets pertaining to those new sections. Applicants needing to amend only those sections may use this supplement alone. Applicants needing to report any additional changes that have occurred since their original filing (such as any changes in ownership) may use the Form 340 (June 2000 or later) or may use this supplement and attach other pertinent sections of Form 340 along with certifications pertaining to those other sections. The deadline for filing this supplement will be announced by public notice. An applicant satisfies its certification that it has submitted documentation to the Commission by attaching that documentation to its supplement or by concurrently submitting the documentation to the Commission's reference room for inclusion in its file.

**Reference Dates:** Applicants should note that Form 340 (which forms the basis for this supplement) was designed primarily for applicants to use prospectively in filing initial applications. Its questions and instructions thus are sometimes phrased in terms of circumstances at the time of application or at close of a filing window, which may not be applicable to pending applicants. **For supplements to pending applications, filed by a special supplement date announced by public notice, applicant should provide non-technical information based on the date of supplement. For answers requiring a reference to technical information, the applicant must use the technical information that was on file as of the group s B cut-off date or as of April 21, 2000** (for applicants in closed groups where there was no "B" cut-off). An applicant must adjust downward for any detracting changes made after those dates but will not gain points for any enhancing changes made after those dates.

**Nontechnical Example:** A local applicant filing an initial application would generally be considered "established" and

thereby eligible for points if it was local for at least the 24 months preceding application. However, a pending applicant filing a supplement will be established if it was local for at least the 24 months preceding the date of the timely filed supplement.

**Technical Example:** An applicant identified site A in its initial application, filed a voluntary amendment changing to site B the day before its B cut-off date, but recently lost that site for reasons beyond its control and thus moved to site C shortly before filing its supplement. The applicant's maximum claim of coverage and population is that it would achieve from site B, but it must reduce its claim if new figures from site C would be inferior. It cannot enhance its claim if the new figures from site C are superior.

**Form vs. Commission Order:** The Commission's Memorandum Opinion and Order in MM Docket 95-31 established some special provisions applicable to pending applicants only (such as a limited opportunity to enhance certain qualifications between the date of application and the date of supplement). In the event that an applicant believes that its answer would differ depending on whether the applicant followed generally applicable form instructions or specific language applicable to pending applications in the Commission's Memorandum Opinion and Order, the applicant should answer in accordance with the Memorandum Opinion and Order.

### Instructions for Section III: Preliminary Factors in Event of Mutual Exclusivity

**Questions 1 and 2:** This section is applicable only to applications for new and major changes to FM stations operating in the reserved band (Channels 200-220). This section enables us to consider, in the event of mutually exclusive FM applications that would serve different communities, whether service to one community over the other would best achieve our directive to distribute radio service fairly among communities. See 47 U.S.C. Section 307(b). The certification asks whether the station would provide the first or second noncommercial educational radio service received by a significant population. First or second NCE service licensed to a particular community is not relevant for this question, if the community receives NCE service from stations licensed to other communities. The applicant's population figures must be based on the most recent Census Block Data from the United States Bureau of Census. Applicants should use the centroid method of counting population (counting persons within each of the relevant census blocks). Applicants should calculate contours

based on the standard predicted contours established in 47 C.F.R. Section 73.313(c). Applicants answering “Yes” should provide an exhibit identifying the population residing within the station’s 60 dBu service contour and the number of people receiving first or second NCE aural service. First or second service to fewer than 2,000 people is considered insignificant. See Worksheet #6 for additional information.

#### **Instructions for Section IV: Point System Factors**

In the event of conflicting mutually exclusive applications not resolved through consideration of the preliminary matters in Section III, the Commission will conduct a paper hearing process by applying a point system to select one application for grant. The point system was established in Report and Order, Reexamination of the Comparative Standards for Noncommercial Educational Applicants, Docket No. 95-31, 15 FCC Rcd 7386 (2000) and clarified by a subsequent Memorandum Opinion and Order. The applicant’s qualification for points is determined as of the closing of the filing window assuming the applicant continues to qualify for all points claimed at the time of selection. Thus, points cannot be enhanced by changes made after the close of the deadline for filing of competing applications, but may be reduced by such changes.

**Question 1: Established Local Applicant.** Applicant should complete Worksheet #4. Established local applicants may claim 3 points. An applicant is considered established if it has been local for at least the 24 months immediately preceding application. A nongovernmental applicant is local if, within 25 miles of the reference coordinates for the proposed community of license, applicant has a school campus, its primary physical headquarters, or the primary residences of 75% of its governing board members. A local headquarters or residence must be a primary place of business or residence and not, for example, a post office box, lawyer’s office, branch office, or vacation home. Governments are also considered local throughout the area within their jurisdiction. (For example, a state government is local throughout a state, whereas a city Board of Education is local throughout the city). An applicant claiming points as an established local applicant, must place supporting documentation in a local public inspection file and submit to the Commission copies of the documentation. Examples of acceptable documentation include corporate material from the secretary of state, lists of names, addresses, and length of residence of board members, copies of governing documents requiring a 75% local governing board, and course brochures indicating that classes have been offered at a local campus for the preceding two years, etc.

**Question 2(a): Diversity of Ownership.** If no party to the application has an attributable interest in another authorized station with an overlapping principal community contour as identified in 47 C.F.R. Section 73.7003(b)(2), the applicant can claim 2 points. Parties are those people or entities listed in response to Section II, Question 6. For purposes of this question, only same service stations (radio or TV) are relevant. For example, an applicant for a new noncommercial educational FM radio station must consider whether there are

attributable interests in overlapping AM or FM stations and FM translators, but need not consider any attributable TV station for purposes of claiming this point. When counting translator stations, count all non-fill-in stations, *i.e.*, those that extend outside the applicant’s primary station’s service contour, except to the extent that the applicant intends to replace specific translator(s) with the proposed full service station. An applicant claiming points for diversity of ownership must place supporting documentation in a local public inspection file and submit to the Commission copies of the documentation. The preferred documentation is a contour map showing the principal community contours of the proposed station and of other attributable stations whose principal community contours overlap or come within 10 miles of the proposed station’s contours. Applicants with no other attributable stations or with attributable stations more distant should so state.

**Question 2(b):** If an FM applicant is proposing to build a full service FM station that will replace the applicant’s existing FM translator(s) it need not count the translator(s) (which would cease upon operation of the proposed full service stations) for purposes of diversity. The applicant relying on this exception may exclude the translator(s) from Question 2(a) above if it answers “Yes” to Question 2(b) and provides an exhibit identifying the translator(s) and stating its intention to request cancellation of the translator(s)’ authorization upon commencement of operation of the proposed full service station.

**Question 3: State-wide Network.** If the Applicant has not claimed a credit for local diversity in Question 2 above, it should complete Worksheet 5 to see whether it qualifies for a 2 point credit as a state-wide network. Applicants may not claim both the state-wide network and local diversity credit. Both public and private entities can qualify for the state-wide network credit, provided that they meet the requirements set out in 47 C.F.R. Section 73.7003(b)(3), which are incorporated into Worksheet 5. National and regional networks generally will not qualify for this credit. Applicants who determine, after completing Worksheet 5, that they qualify, should answer “Yes.” All others should answer “No.” Applicants claiming points as a state-wide network must place supporting documentation in their local public inspection file and submit to the Commission copies of the documentation. Preferred documentation includes identification of the names, locations, accrediting bodies, and number of schools which the applicant is currently serving and those that it will serve, and an indication of whether the schools are under the applicant’s jurisdiction or are being served pursuant to a coordinated agreement with another authority. If the schools are not under the applicant’s jurisdiction, the applicant should include documentation of the terms of its agreement with the entity with authority over the schools.

**Question 4: Technical Parameters.** An applicant that provides the best technical proposal among the competing applicants, in terms of area and population served, may be eligible for additional points. The applicant may use Worksheet #8 to answer this question. Applicant should

indicate the area and population within its proposed 60 dBu service contour (FM) or Grade B contour (TV). For new stations, the proposal is the area covered by that contour. For modifications to existing stations, the proposal is the **new** area within that contour. Modification applications must exclude any areas within the proposed service contour that are already served by the station's existing service contour. Area must be measured in square kilometers and exclude significant areas of water, e.g. ocean and lakes. Population should be measured using the most recent census block data available from the United States Bureau of Census. If applicant's claimed coverage is superior to all others in terms of both area and population by at least 10%, the Commission will award 1 point. If the proposal is superior to all others by at least 25%, the Commission will instead award 2 points. The applicant should place in its local public inspection file a statement of how the technical parameters were calculated, e.g., the year and blocks of census information used, and the method used to determine area, including the amount of area excluded for specific large areas of water. The applicant should submit to the Commission copies of this information.

#### **Instructions for Section V: Tie Breakers**

If two or more applicants are tied under the point system, the Commission will apply a series of tie breakers, until the tie is broken. If the tie cannot be broken and the applicants cannot reach a voluntary settlement, the Commission will consider the tied applicants for mandatory timesharing on an equal-time basis.

**Question 1: Existing Authorizations.** If mutually exclusive applicants differ in their number of existing authorizations, the applicant with the fewest attributable full service authorizations at the time of filing will be chosen. Applicant should indicate the number of attributable authorizations held by parties to the application nationwide, but only stations in the same service (radio or television). Include full service authorizations, both licenses and construction permits, whether commercial or noncommercial. In addition, FM applicants must count FM translator stations providing non-fill-in service (i.e., those extending a station's service area) unless identified in an exhibit to Question IV(2)(b) above. Do not count FM translators providing fill-in only service in determining the number of stations for this question.

Example: Applicants A and B are competing to construct a new noncommercial educational radio station, and are tied.

Applicant A has one television station, one FM station using one fill-in FM translator, and one construction permit to build a new commercial AM station. Applicant A should indicate interests in two radio stations. (The TV and fill-in translator interests are not counted.)

Applicant B has no other radio authorizations. A member of its governing board also serves on the governing board of a commercial AM station. Its parent organization has interests in 10 television stations. Applicant B should indicate interests in one radio station. (Its officers and parent are parties, but the TV interests are not counted.)

Applicant B would become the tentative selectee because it has fewer attributable authorizations.

**Question 2: Pending Applications.** If a tie remains between mutually exclusive applicants after considering Question 1 (existing authorizations), the Commission will select the applicant with the fewest pending applications in the same service (radio or TV) at the time of filing. Applicant should indicate the number of applications in which parties to the application hold an attributable interest. Include applications for new stations and for major changes to existing stations, whether commercial or noncommercial full service or FM translator (other than fill-in FM stations). Do not include other applications (e.g., voluntary assignment of license, license renewal, minor change in existing facilities).

#### **FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT**

The FCC is authorized under the Communications Act of 1934, as amended, to collect the personal information we request in this form. We will use the information provided in the application to determine whether approving this application is in the public interest. If we believe there may be a violation or potential violation of a FCC statute, regulation, rule or order, your application may be referred to the Federal, state or local agency responsible for investigating, prosecuting, enforcing or implementing the statute, rule, regulation or order. In certain cases, the information in your application may be disclosed to the Department of Justice or a court or adjudicative body when (a) the FCC or (b) any employee of the FCC; or (c) the United States Government is a party to a proceeding before the body or has an interest in the proceeding. In addition, all information provided in this form will be available for public inspection.

If you owe a past due debt to the federal government, any information you provide may also be disclosed to the Department of Treasury Financial Management Service, other federal agencies and/or your employer to offset your salary, IRS tax refund or other payments to collect that debt. The FCC may also provide this information to these agencies through the matching of computer records when authorized.

If you do not provide the information requested on this form, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Your response is required to obtain the requested authorization.

We have estimated that each response to this collection of information will take 15 hours. Our estimate includes the time to read the instructions, look through existing records, gather and maintain the required data, and actually complete and review the form or response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Paperwork

Reduction Project (3060-0034), Washington, DC 20554. We will also accept your comments via the Internet if you send them to [jboley@fcc.gov](mailto:jboley@fcc.gov). Please DO NOT SEND COMPLETED APPLICATIONS TO THIS ADDRESS. Remember - you are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number of if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0034.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1974, 5 U.S.C. Section 552a(e)(3), PAPERWORK REDUCTION ACT OF 1995, P.L. 104-13, OCTOBER 1, 1995, 44 U.S.C. Section 3507.

**POINT SUPPLEMENT TO PENDING FCC 340 FILED PRIOR TO POINT SYSTEM  
 (NONCOMMERCIAL EDUCATIONAL BROADCAST STATION)**

File Number of Application to be Supplemented: \_\_\_\_\_

City/State of Proposed Facility: \_\_\_\_\_

FM       TV

Legal Name of the Licensee/Permittee		
Mailing Address		
City	State or Country (if foreign address)	ZIP Code

Telephone Number (include area code)	E-Mail Address (if available)	

[Sections I, II and VII of FCC 340 are not reproduced]

**Section III**

**Fair Distribution of Service Pursuant to 47 U.S.C. Section 307(b) (New and Major Changes to FM Radio Only)** (Other applicants can proceed to Section IV.)

- Applicant certifies that the proposed station will provide a first noncommercial educational aural service to (a) at least 10 percent of the people residing within the station's 60 dBu (1 mV/m) service contour **and** (b) to a minimum of 2,000 people. Applicants answering "Yes" must provide an Exhibit.

Yes     No

Exhibit No.
- Applicant certifies that the proposed station will provide a second noncommercial educational aural service to (a) at least 10 percent of the people residing within the station's 60 dBu (1 mV/m) service contour **and** (b) to a minimum of 2,000 people. Applicants answering "Yes" must provide an Exhibit.

Yes     No

Exhibit No.

**Section IV -- Point System Factors -- New and Major Change Applications Only** (used to select among mutually exclusive radio and television applications for new stations and major modifications) **NOTE:** Applicants will not receive any additional points for amendments made after the close of the application filing window.

1. **Established Local Applicant:** Applicant certifies that for at least the 24 months immediately prior to application, and continuing through the present, it qualifies as a local applicant pursuant to 47 C.F.R. Section 73.7000, that its governing documents require that such localism be maintained, and that it has placed documentation of its qualifications as an established local applicant in a local public inspection file and has submitted to the Commission copies of the documentation.  Yes (3 points)  No (0 points)

2. **Diversity of Ownership:** (a) Applicant certifies that the principal community (city grade) contour of the proposed station as identified in 47 C.F.R. Section 73.7003(b)(2) does not overlap the principal community contour of any other authorized station (comparing radio to radio and television to television, including non-fill-in FM translator stations other than those identified in 2(b) below) in which any party to the application has an attributable interest as defined in 47 C.F.R. Section 73.3555, that its governing documents require that such diversity be maintained, and that it has placed documentation of its diversity qualifications in a local public inspection file and has submitted to the Commission copies of the documentation.  Yes (2 points)  No (0 points)

(b) Is the applicant's certification to 2(a) based on its exclusion of FM translator station(s) that will be replaced with a full service station pursuant to the authorization requested here?  Yes  No

If Yes, applicant must include an exhibit identifying the FM translator station authorization for which it will request cancellation upon commencement of operation of the proposed full service station (i.e., upon its filing of a license application and receipt of program test authority).

Exhibit No.
-------------

3. **State-wide Network:** Applicant certifies that (a) it has NOT claimed a credit for diversity of ownership above; (b) it is one of the three specific types of organizations described in 47 C.F.R. Section 73.7003(b)(3); and (c) it has placed documentation of its qualifications in a local public inspection file and has submitted to the Commission copies of the documentation.  Yes (2 points)  No (0 points)

4. **Technical Parameters:** Applicant certifies that the numbers in the boxes below accurately reflect the new area and population that its proposal would serve with a 60 dBu (FM) or Grade B (TV) signal measured in accordance with the standard predicted contours in 47 C.F.R. Sections 73.313(c) (FM) and 73.683(TV) and that it has documented the basis for its calculations in the local public inspection file and has submitted copies to the Commission. Major modification applicants should include new area proposed only (exclude any area already within the station's existing service area). (Points, if any, will be determined by FCC)  Yes  No

New area served in square kilometers (excluding areas of water):

--

Population served based on the most recent census block data from the United States Bureau of Census using the centroid method:

--

**This box is for FCC use only:**

Technical Points:

- 0 points.
- 1 point. Applicant's proposal covers the largest area and population, and both area and population are 10% greater than next best proposal; or
- 2 points. Applicant's proposal covers the largest area and population, and both area and population are 25% greater than next best proposal.

**POINTS CLAIMED BY APPLICANT (from Questions 1-3)**

**TECHNICAL POINTS? (from Question 4)**

**TOTAL POINTS**

**Section V -- Tie Breakers -- New and Major Change Applications Only** (used to choose among competing radio and television applicants receiving the same number of points in Section IV)

1. **Existing Authorizations.** By placing a number in the box, the applicant certifies that it and other parties to the application have, as of the date of filing and pursuant to 47 C.F.R. Section 73.3555, attributable interests in the stated number of relevant broadcast station authorizations. Radio applicants should count all attributable full service radio stations, AM and FM, commercial and noncommercial, and FM translator stations other than fill-in stations or those identified in IV(2)(b) above. TV applicants should count all attributable full service TV stations, commercial and noncommercial, including Class A stations.

(number of commercial and noncommercial licenses and construction permits)

2. **Pending Applications.** By placing a number in the box, the applicant certifies that it and other parties to the application have, as of the date of filing and pursuant to 47 C.F.R. Section 73.3555, attributable interests in the stated number of pending applications for new or major changes to relevant broadcast stations. Radio applicants should count all attributable full service radio stations, AM and FM, commercial and noncommercial, and FM translator stations other than fill-in stations or those identified in IV(2)(b) above. TV applicants should count all attributable full service TV stations, commercial and noncommercial, including Class A stations.

(number of pending commercial and noncommercial applications)

**Section VI -- Certification**

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations. I hereby waive any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and request an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

Typed or Printed Name of Person Signing	Typed or Printed Title of Person Signing
Signature	Date

**WORKSHEET #4**

**ESTABLISHED LOCAL APPLICANT** (Section IV, Question 1)

**1. Is the applicant currently local, for purposes of the NCE point system?**

- a. **Local Campus.** Applicant operates a school campus within 25 miles of the reference coordinates\* of the proposed community of license.  Yes  No
- b. **Local Headquarters.** Applicant has a local headquarters (primary place of business) within 25 miles of the reference coordinates\* of the proposed community of license. NOTE: A local headquarters is the applicant's primary place of business and not, for example, a post office box or branch office.  Yes  No
- c. **Local Governing Board.** (1) At least 75% of the members of applicant's governing board have for the preceding two years maintained their primary residence within 25 miles of the reference coordinates\* of the proposed community of license AND (2) applicant's governing documents (e.g., by-laws) require that this 75% local characteristic of the governing board be maintained for future boards as well. NOTE: A primary residence is a domicile, and not for example, a vacation home or a student's temporary school address. For example, an address may be a domicile if it is the address from which the board member is registered to vote, maintains his driver's license, and/or files his federal income taxes.  Yes  No
- d. **Government Entity Within Own Jurisdiction.** Applicant is a government entity whose authority encompasses the proposed community of license. Example: Applicant is the Board of Regents of a State University System applying for a station within its own state or a City Board of Education applying for a station within its city.  Yes  No

\*A community's reference coordinates are generally the coordinates listed in the United States Department of Interior publication entitled "Index to the National Atlas of the United States." An alternative reference point, if none is listed in the Atlas Index, is the coordinates of the main post office.

Applicants answering "Yes" to a, b, c, or d should proceed to Question 2. Those answering "No" to all a, b, c and d should answer "No" in Section IV, Question 1.

**2. Is the applicant established?**

Yes  No

For the period beginning two years (24 months) prior to application, and continuing without interruption through present, has the applicant been able to answer "Yes" to at least one of a, b, c or d above.

**Note For Applicants Amending Applications Filed Prior to Point System:** Answer for 2 years prior to original application continuing through present except that pre-point system applicants who answered in 1(c)(2) above that they have the requisite by-laws may answer as if those by-laws have always been in place.

Applicants answering "No" to Question 2 of this worksheet should answer "No" to Section IV, Question 1. Applicants answering "Yes" to both Question 1 and Question 2 of this worksheet should answer "Yes" to Item 22, place documentation in their public file and submit to the Commission copies of the documentation.

**WORKSHEET #5**

**STATE-WIDE NETWORKS** (Section IV, Question 3).

1. Has the applicant claimed a credit for local diversity of ownership in Section IV, question 2?  Yes  No

Applicants answering "Yes" are not eligible to claim an additional credit as a statewide network and must answer "No" to Section IV, question 3. All other applicants should continue to answer the following questions.

2. For applicants that control schools, do all of the following apply?

Applicant has authority over a minimum of either: 50 full-time elementary and/or secondary schools; or 5 full-time college and/or university campuses.  Yes  No

The 50 schools/5 campuses are accredited by a state department of education and/or a recognized regional/national educational accrediting organization.  Yes  No

The 50 schools/5 campuses are within a single state.  Yes  No

The 50 schools/5 campuses are encompassed by the combined primary service contours of the proposed station and applicant's existing station(s).  Yes  No

Applicant's existing station(s) are regularly providing programming to schools/campuses within the existing primary service contours in furtherance of their curriculum and the proposed station will increase the number of schools applicant will regularly serve.  Yes  No

Applicants answering "Yes" to all of the subparts above should answer "Yes" to Section IV, Question 3, and should place documentation supporting the answers in a local public inspection file and submit to the Commission copies of the documentation. Other applicants should continue with this worksheet.

3. For applicants that do not control schools, or who control schools that do not meet the above requirements, do all of the following apply?

Applicant will regularly provide programming to entities or institutions that, in combination, meet all of the requirements in question 2, above, of this worksheet.  Yes  No

The applicant will provide the programming in coordination/consultation with the schools/campuses, and for use in the school curriculum.  Yes  No

The agreement(s) between applicant and the schools/campuses requires service to be regular and ongoing, and applicant intends to provide such service for no less than four years.  Yes  No

Applicants answering "Yes" to all of the subparts above should answer "Yes" to Section IV, Question 3, and should place documentation supporting the answers above in a local public inspection file and submit to the Commission copies of the documentation. Other applicants should answer "No" to Section IV, Question 3.

**WORKSHEET #6**

**FAIR DISTRIBUTION.** FM Applicants may use this worksheet to answer the questions in Section III, Questions 1 and 2.

1. Using the centroid method for calculating population, based on the most recent census block data, the number of people residing within the radio station's 60 dBu (1 m/Vm) service contour (calculated based on the standard curves in 47 C.F.R. Section 73.313(c) is:

\_\_\_\_\_  
x .10

2. Multiply the population on line 1 by .10 (10%)

\_\_\_\_\_

3. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a first NCE aural service (i.e., currently receiving no other NCE-FM station on a reserved channel) from the proposed facility is:

\_\_\_\_\_  N/A

4. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a second NCE aural service (i.e., currently receiving only one other NCE-FM station on a reserved channel from the proposed facility is:

\_\_\_\_\_  N/A

5. Is the number of people reported in 3. and 4. equal to or greater than line 2? If "No," applicant should answer "No" on Section III of Form 340.

Yes  No

6. Is the number of people in 3. or 4. at least 2,000? If "No," applicant should answer "No" to the questions in Section III of Form 340.

Yes  No

Applicants answering "Yes" to both Questions 5 and 6 should answer "Yes" to the corresponding question in Section III of Form 340 (Question 1 for first service, Question 2 for second service) and include an exhibit describing the extent of first and/or second service. Applicants may use this worksheet as the exhibit, if desired.

**WORKSHEET # 8**

**TECHNICAL PARAMETERS** (Section IV, Question 4)

The applicant can use this worksheet to determine the area covered by its proposal. For major modifications of existing stations report the proposed increase in area over that already authorized. For new stations report the proposed area to be covered by the new station.

**1. Major Modification Applicants:**

- a. Total area to be served by station's 60 dBu (FM) or Grade B (TV) standard predicted \_\_\_\_\_ sq. kilometers  
contour **after proposed modification**
- b. Subtract major areas of water (e.g., lakes, oceans) \_\_\_\_\_ sq. kilometers
- c. Subtract common area already served by station's existing 60 dBu (FM) or Grade B (TV) \_\_\_\_\_ sq. kilometers  
standard predicted contour
- d. Equals new area to be served by **modified** station \_\_\_\_\_ sq. kilometers

Applicants for major modifications should take the amount of increased area from (1)(d) above and enter it in Section IV, question 4 of Form 340. Also calculate the population in that increased area using the centroid method based on the most recent census block data from the U.S. Bureau of Census.

**2. Applications for New Stations:**

- a. Total area to be served by **new station's** 60 dBu (FM) or Grade B (TV) standard \_\_\_\_\_ sq. kilometers  
predicted contour
- b. Subtract major areas of water (e.g., lakes, oceans) \_\_\_\_\_ sq. kilometers
- c. Equals Area to be served by **new** station \_\_\_\_\_ sq. kilometers

The amount of new area in (2)(c) above should be reported in Section IV, question 4 of Form 340. Also calculate the population in that new area using the centroid method based on the most recent census block data from the U.S. Bureau of Census.
