The trailer has always been stored in a enclosed storage facility, out of the weather. Only 3 years old, in Excellent Condition.

The production trailer has a professional all white exterior and interior and looks great parked outside or inside an arena, corporate meetings, media tours, DVD production, webcasts, downstreaming, religious programming, or news/sports events. Also provides a low cost portable inside control room for professionals who need a quick and economical solution for broadcast and cable productions close to the TV/shooting set. Also ideally suited for Schools, Universities, Churches or TV studios and stations with a limited budget.

Total Video Rack Ready Package

\$8500
