Covid-19 Vaccinations for Persons with Disabilities

Alabama Developmental Disabilities Network

ISSUES-PROGRAMS

A. Narrative describing the issue:

The Alabama Developmental Disabilities Network has launched a Covid-19 vaccination PEP campaign for persons with disabilities. Persons with disabilities are at higher risk for exposure and serious illness than the general population. This messaging encourages them to get vaccinated.

B. Narrative describing the program:

These spots for radio and television remind persons with disabilities that if they live in a care facility or rely on close contact with their caregivers, their risk of exposure to Covid-19 is greater. In addition, persons with disabilities are more likely to have other complicating health risks like diabetes or heart disease. The spots encourage people to call the ADDN for more information.
