

August Engineering Webinar

Our next webinar will be held on Tuesday August 18th at 10:00 AM Central Time.

Presenters for the August webinar will be Fred Baumgartner with OneMedia/Sinclair. Fred is involved in the roll out of ATSC 3.0 for Sinclair and will talk about things engineers need to be aware of during the planning stage and how the roll out is working around the country. He will also talk about some of the features of Next Gen Television.

The second half of the program will feature Matt Leland with Burke Technologies. The program will cover Remote control systems that are taking advantage of the scalability of IP which offer innovative options for I/O hardware connectivity using any SNMP-enabled devices on your LAN or WAN with no additional wiring.

SBE members attending these webinars receive ½ recertification credit in Category I
